October 12, 2015

Dear Sir/Madam,

Greetings from Bhutan!

It is my pleasure to introduce our company Bhutan Event Expos (BEE), Thimphu, Bhutan. BEE specializes in setting up exhibition stalls and infrastructures. We provide services like organizing, planning and delivering services for event management. Through our events, we reach out to our Bhutanese people and make our audience aware of the of existing business companies and upcoming companies both national and international and availability of their technology, services and products.

Our clientele includes government agencies, organization, and individuals from within the country and international countries.

Bhutan Event Expos is currently organizing an event in association with the Bhutan Chamber of Commerce and Industry (BCCI) tentatively scheduled on April 23-24, 2016 called “INTRODUCING GREEN: *Technology, Products and Services*” in Thimphu, Bhutan coinciding with the Earth day. The expected number of visitors for this event is more than 6000 (Six Thousand).

For your kind information, the goal of the Royal Government of Bhutan is to go Green and preserve our natural environment. One step taken by the Royal Government of Bhutan is introducing electric cars. They are also encouraging the Bhutanese people to go green by changing the public’s consumption habits, promoting green economy by providing environmental friendly infrastructures, services and promoting the transfer of knowledge on green technology. The Royal Government strongly supports businesses that have less impact on the environment. Therefore, this event will be the right arena to create awareness and educate people on the availability of different varieties of environment friendly technology, products and services which your company specializes in.

The concept of this event is to introduce different kinds of commodities and products which are environment friendly. This event will also provide a platform for the manufacturer, producers and retailers to introduce, market and create opportunity for their products to penetrate and make a place for their products in the Bhutanese market. Also it will be easy to establish your place in the Bhutanese market because there are very few eco friendly manufacturer in Bhutan.
